WORK EXPERIENCE

Front- End Developer

KJSS Comsos

03/2023 - Present

Achievements/Tasks

- Successfully deployed Formik with Yup to streamline form development.
- Implemented declarative validation, reducing manual effort and ensuring data accuracy which led to a 15% decrease in form submission errors, resulting in cleaner and more accurate data.
- Enabled automatic error handling, minimizing user frustration and improving form submission rates leading to a 25% increase in user satisfaction scores.
- Integrated form state management for simplified maintenance and scalability enabling the company to easily scale its form infrastructure as needed without significant overhead.
- Successfully implemented a multi-level hierarchical category selection feature in a React application, enhancing user navigation and product discovery experience.
- Applied conditional rendering and state management techniques in React to dynamically generate and manage input fields based on user selections, resulting in an intuitive and seamless category browsing process.

AREA OF EXPERTISE

HTML   CSS   Bootstrap   Javascript
ReactJS   Postman   GitHub   Redux
Time Management   Agile Method

PROJECTS

TimeSheet Portal

- Developed role-specific functions for admins, supervisors, and employees, ensuring smooth workflow.
- Implemented React Router DOM for secure role-based navigation.
- Employed Redux Toolkit for efficient data management.
- Conducted rigorous testing for stability and reliability.
